

**The ELCHK
Yuen Long Lutheran
Secondary School**

**School Report
2024-2025**

(1) Our School

Introduction

Our school is an aided co-educational school which was established by the Evangelical Lutheran Church of Hong Kong in 1959. We moved to a bigger site in Tin Shui Wai from Yuen Long in 1993. There are 30 classes from S1 to S6 (a total of 955 students).

School Motto

Rectify Mind Cultivate Person

School Mission

Our school strives to provide students with holistic Christian education to develop their God given potential to the fullest extent, nurture them to become enthusiastic learners and responsible citizens so as to glorify God and benefit mankind.

Teaching Staff Information

70 teachers were employed. 100% of them were Bachelor Degree holders while 39% of them held a Master Degree or above. 90% of them completed the Teacher Certificate / Diploma in Education. 40% of them have over 10 years teaching experience.

Facilities

With a new annex built since 1995, the campus is hence well equipped with 2 halls, a mini-theatre, regular classrooms and several special rooms, including the Maker Lab, GeoScience Lab, Chit Chat Zone, Mathematics Room, Student Activity Room, Dancing Room, Library, Self-Study Room, Life Education Centre, Emmanuel, Fitness Room, Music Room, Music Balcony, Chinese Literature Room and Art Pro. All classrooms are equipped with air-conditioners, computers, projectors and smart interactive boards in order to provide a comfortable and conducive teaching and learning environment.

To facilitate the development of Global Classroom, Video Conference Rooms were set up for students to have a cultural and academic exchange with our sister schools.

School Management

School-based management is implemented in our school. All teachers are invited to participate in decision-making. Parents and alumni are also invited to provide suggestions on the school policy by joining the Parents and Teachers Association and Alumni Association. All school policies are approved by the Executive Committee Meeting and announced in the Staff Meeting.

Three-year School Plan is formulated every 3 years. Annual School Plan is proposed based on the Three-year School Plan. Evaluation workshop is organized to evaluate the effectiveness of the school policy. Three-year School Plan, Annual School Plan and School Report should be approved by The Incorporated Management Committee and uploaded in the school website before November. 3 Incorporated Management Committee Meetings are held every year and the composition is as follows:

Sponsoring Body Manager	8

- 100% of students were arranged to participate in school-arranged Mainland exchange/learning activities with sister school online.
- 97.91% of students concerned had a sense of commitment and were better prepared for future studies and career. Students were all proud of the rapid development of the country under the reform and opening-up policy, and they were excited to be able to visit the mainland in person to enrich their learning experiences.
- 100% of S4 students were arranged to participate in the Mainland study tours of the Citizenship and Social Development Subject.
- 100% of the students displayed their sense of commitment for school service.
- 100% of teachers concerned agreed that the Leadership Training programmes /workshops had enhanced students' leadership skills.
- 98.54% of students agreed that the Leadership Training programmes/ workshops had enhanced their leadership skills and helped broaden their scope of life planning.

Target 3: To refresh students from academic pressure

- 98.18% of teachers concerned agreed that Refreshing Days had helped maintain a good class atmosphere, enhance students' affective and social performance and facilitate students' growth and learning.
- 98.18% of teachers agreed that the afternoon activities on Refreshing Days could refresh students and facilitate their growth and learning.
- 97.34% of students agreed that Class-based Refreshing Days and Club-based Refreshing Day could refresh them and facilitate their growth and learning.
- 99.05% of students had a positive attitude towards a healthy lifestyle under the “refreshing day” measure.
- 90.91% of teachers and 93.93% of students agreed that including only Chinese Language, English Language, Mathematics and Integrated Science in junior form uniform form tests could refresh students from academic pressure.
- Students' Q-scores from APASO III showed 110 for positive affect and 113 for no negative affect, indicating that most students effectively experience positive emotions and manage negative emotions like anxiety and anger. These results demonstrate the school's commitment to enhancing social-emotional well-being and providing necessary support.

Target 4: To strengthen students' appreciation of themselves and other Lutheranian members

- 98.48% of students gave positive feedback on the positive class ethos.
- 99.43% of students agreed that they understand the importance of appreciation.
- 98.18% of teachers agreed that they had a positive feedback on Thanksgiving Day and believed that it helped facilitate students' growth and cultivate a positive class ethos and campus culture.
- 97.15% of students agreed that they received positive feedback on Thanksgiving Day and felt it facilitated their growth, while 97.72% of students believed that Thanksgiving Day deepened their sense of gratitude.

- Timely recognition and appreciation to students given by teachers increased to 100% compared to the previous academic year, with 90.91% of teachers expressed appreciation for students on eClass. Furthermore, 100% of teachers agreed that practices like self-appreciation and peer appreciation on eClass helped students learn to appreciate themselves and others effectively.
- 98.48% of students provided positive feedback on the class ethos. Additionally, 97.72% acknowledged their understanding of the importance of appreciation.
- 100% of teachers agreed that a letter home on parents day let students know better how to show their appreciation for their parents.

Reflection

Target 1: To foster students' positive values

Target 2: To broaden and deepen students' scope of life planning.

Target 3: To refresh students from academic pressure.

Target 4: To strengthen students' appreciation of themselves and other Lutheran members

Most of the targets were successfully achieved because of the following facilitating factors; and some hindering factors could be taken into account.

- The Values Education Task Force was established to align the school's plans with EDB requirements, coordinate activities, and evaluate outcomes. Initial progress included "excellent works" from the Chinese, English, and Visual Arts departments, integrating values into the curriculum. The Student Affairs Committee held regular meetings to set clear and prioritized targets. Lutheran Virtues and PVAs were incorporated into the Scheme of Work with input from the task force. Teachers facilitated class discussions to help students understand and apply values in daily life. A strong home-school connection was maintained to promote these values effectively.
- Diverse experiential learning opportunities were provided, including briefing and debriefing sessions to instill positive values. Activities such as Thanksgiving Day, Life-wide Learning Activities, Religion Sharing, keynote speeches, talks, and weekly assemblies were successfully implemented to help students effectively learn and internalize various values.
- With strong support from parents, alumni, and organizations like the Evangelical Lutheran Church Social Service-Hong Kong and Tin Yiu Life Lutheran Church, the school provided diverse learning experiences and support services. This collaboration enabled successful events like Thanksgiving Day, S2 & S4 Social Service Year, S1 Blessing Ceremony, and Watoto sharing, while equipping student leaders to plan effective service-learning activities.
- The school systematically integrated six Lutheran Virtues and twelve EDB priority values across the curriculum. Exchange programs and G-Projects with sister schools, involving multiple subjects and committees, enabled students to share experiences, broaden perspectives, and deepen their understanding of these values.
- Special assemblies before Parents' Day and Thanksgiving Day helped students deepen their understanding of filial piety and Gratefulness. Students applied this learning by writing letters to their parents and preparing thanksgiving actions, effectively reinforcing these values across the school community.
- The school emphasized gratitude and appreciation to foster a positive culture. Speech sessions and morning assemblies with the "Happydemic" theme promoted life satisfaction and well-

being. Creative and sincere expressions of gratitude were encouraged among students and class teachers, leading to increased awareness and practice. This resulted in a significant rise in both the quantity and quality of teacher appreciation, with positive feedback from teachers.

- The “Happydemic Atmosphere” initiative fostered a joyful and caring school environment. Optimized “Refreshing Day” arrangements, with special activities and outings, strengthened peer connections and promoted well-being. Measures like reducing after-school and large-scale tests addressed the impact of excessive testing on student well-being. These efforts enhanced positive relationships, belonging, and a positive school culture.

Some of hindering factors that could be taken into account:

1. Student Well-being and Development:

- The Q-score of 93 for the “Absence of Anxiety and Depression” domain raises concerns, as it falls slightly below the territory-wide average (i.e. 100). This suggested that many students may experience anxiety and depression symptoms, highlighting the need for increased support and resources to improve their emotional well-being and mental health.
- Increasing mental health concerns, including suicidality, emotional distress, and learning differences strain teachers in supporting diverse needs.
- Senior boys report below-average self-concept scores, requiring targeted support.
- Male students lag behind female peers in leadership roles, highlighting a need for intervention.

2. Societal Influences:

- Pervasive societal information challenges the cultivation of student values, potentially conflicting with Values Education efforts.

Feedback and Follow-up

- Strengthen collaboration with ELCHK Tin Yiu Life Lutheran Church and organizations (e.g., CityLab, LevelMind@JC, CEO HI Partner Program, HYAB JC Scheme) to provide experiential learning opportunities.
- Optimize Refreshing Days and Thanksgiving Week to enhance student well-being.
- Expand communal spaces and improve campus facilities to foster a Happydemic atmosphere.
- Renovate a room into the “YLL Treehole” for game therapy.
- Provide targeted support for students in the bottom 5% of academic rankings.
- Establish the “HappyDemic Lutheran” Campus Channel to promote the 4Rs Mental Health Charter, growth mindset, and positive values.
- Launch the “Healthy School Programme” to promote physical, mental, and social well-being.
- Restructure weekly and morning assemblies to emphasize well-being across knowledge, emotion, thought, and action.
- Organize an annual “SPIRE Week” focused on well-being in Spiritual, Physical, Intellectual, Relational, and Emotional dimensions.
- Establish the YLL ParentWise Academy with two talks per term and resources to support well-being at home, including a Parent-Child Go Unplugged Camp with a commitment ceremony.
- Strengthen home-school communication through Principal’s Chit-Chat, “Letters Home,” and ParentPro Career Expo to provide multifaceted support for students.
- Refine “Healthy Wednesdays” and organize a “MultiSport Experience Day” to encourage healthy lifestyles.
- Extend class teacher periods and arrange regular one-on-one teacher-student meetings to foster positive teacher-student and peer interactions.

Major Concern 2:**Implementing Globalized Pedagogical Approaches and Broadening Students' International Perspectives****Achievements****Target 1: To enhance students' positive attitudes and habits of active learning and enhance self-directed learning**

- 96.4% of teachers believed that the measures were effective to enhance students' positive attitudes and habits of active learning and enhance self-directed learning.
- 98.2% of teachers agreed that lesson observations done by the Principal and lesson observations done by the Heads of Departments for newly employed teachers, which were completed in the three steps of 'explanation, observation and evaluation', could address the delivery of difficult teaching points, strengthen professional growth and enhance students' positive attitudes, habits of active learning and self-directed learning.
- 97.9% of students agreed that lesson preparation assigned by teachers before lessons and jotting notes on their own initiative during the lessons enhanced the habits of active learning.

Target 2: To increase students' learning flexibility

- Around 200 online tutorial classes were conducted in senior forms.
- 150 students were admitted to the One-on-One Online English Oral Practice Programme this year, with 182 students applying for the programme.
- One-on-One Online English Oral Practice started in October 2024. The program ended in June 2025 with a high student attendance rate (95.6%).
- 139 students participated in the online oral practice programme with external Japanese, German and Korean tutors this year.
- 96.8% of students agreed that the participation in the online speaking sessions of the After-school Pull-out Foreign Language Classes has broadened their learning experiences outside the classroom.
- 97.5% of students agreed that blended learning in the forms of online tutorial and individual or small group pull-out sessions could increase their learning flexibility.

Target 3: To provide students with a diversified range of learning assessments and to cater for learning diversity

- 96.4% students agreed that offering diversified assignment modes (e.g. non-writing mode and experiential mode) facilitated the exploration of learning abilities and interests.
- 96.8% of junior form students agreed that being allowed to choose an assignment submission method according to their strengths and a diversified assignment mode could provide them with a diversified range of learning assessments and cater for learning diversity.

Target 4: To enhance students' information literacy and their interests in STEAM

- Different programming languages were introduced, including Block Coding Languages (App Inventor for S1 and S2 and Python for S3). Students' programming capabilities would be enhanced.
- 96.0% of STEAM student leaders agreed that they could enhance students' information literacy and their interests in STEAM.
- 94.7% of students agreed that the use of VR/AR in teaching could enhance students' interests in each subject.
- 93.9% of students agreed that programming language and AI in Computer Literacy could enhance their information literacy and interests in STEAM.
- 94.8% of students agreed that organizing STEAM Expo could enhance their information literacy and their interests in STEAM.

Target 5: To nourish more able students through school-based gifted development programmes

- As of June 2025, 38 on- and off-campus programmes, competitions, courses and/ or talks for the gifted were promoted.
- 100% of students agreed that participating in off-campus programmes (e.g. CUHK Winter/Spring Programme for the Gifted and Talented), competitions, courses or talks for the gifted has enhanced their multiple potentials e.g. high-order thinking skills, creativity and personal-social competence.
- 99.1% of students agreed that self-nomination for the Talent Pool has allowed them to identify their interest(s) and given them more opportunities to participate in programmes for the gifted.

Target 6: To strengthen global interactions and optimize the arrangements of studying abroad.

- 6 overseas and Mainland study tours were held this year (Japan (2), France and England, Australia, Taishan and Nanjing), with 157 participants.
- 2 talks on overseas studies were organized this year (on studying in schools in partnership, and in Konkuk university, Korea in particular) with 624 participants, including 135 parents and 489 students. 2 more talks would be held in July 2025 on studying abroad in the UK and in Rikkyo University, Japan.
- A talk on further studies in Mainland China and studying in Tsinghua were held this year, with 955 students and 135 parents participating.
- The Global Project was carried out online from December 2024 to March 2025 (with 71 participants from 8 schools) in collaboration with 7 sister schools in Mainland China, Hong Kong, China and Japan.
- 96.6% of students agreed that on-site and online real-time overseas exchange sessions enhanced their international horizons for future opportunities.
- 95.6% of students agreed that the participation in the After-school Pull-out Foreign Language Classes prepared them to take the language proficiency tests.
- 98.5% of students felt confident in making an informed and responsible choice for further studies.

Reflection

Target 1: To deepen the culture of lesson studies

Target 2: To increase students' learning flexibility and adopt the Blended Learning Model

Target 3: To introduce a diversified assessment model

Target 4: To enhance the STEM atmosphere - Introducing VR/AR technology in the teaching of each subject

Target 5: To strengthen the practice of talent search in Gifted Development Programme

Target 6: To strengthen global interactions and optimize the arrangements of studying abroad

Most of the targets were successfully achieved because of the following facilitating factors; and some hindering factors could be taken into account.

1. Widespread support in the cultivation of active learning culture in school:

- Each subject panel would continue to conduct lesson studies to enhance students' positive attitudes and habits of active learning and enhance self-directed learning.
- Most students agreed that lesson preparation assigned by teachers before lessons and jotting notes on their own initiative during the lessons enhanced the habits of active learning.

2. Active participation in online English oral practice programme and foreign language courses:

- The school has established firm connections with sister schools from different regions, service providers and external organisations. These connections and collaborations have resulted in abundant opportunities for students to explore their interests and polish their language skills.
- Due to the promotion done by English Ambassadors and the sharing on last year's fruitful lessons, the number of students signing up for the online English oral practice program increased and the number of enrolled students was also raised.

3. Diversified assignment modes supported by students:

- Students agreed that having diversified assignment modes and different assignment submission methods facilitated the building of learning abilities and exploration of interests.
- New assignment modes, e.g. Oral Defense, would be introduced in some subjects in junior forms.

4. Teachers' and students' enthusiasm in STEAM:

- More than 25 booths of prototypes would be demonstrated in STEAM Expo. Students' creativities and problem solving would be enhanced.
- AI tools are like a key to the new era, unlocking infinite possibilities for us. However, while empowering students with the ability to use AI tools, it is better to teach them how to use this powerful tool safely and responsibly.

5. Recommendations for more able students through school-based gifted development programmes:

- The use of school-based student talent pool has become more mature. Subject teachers refer to the talent pool when recommending students to enrol in various programmes for the gifted learners.
- With the practice of students' self-nomination, their achievements were noticed. The target of 'talent search' was fulfilled.
- The scope of 'giftedness' was extended to non-academic areas, allowing recognition of students' multiple talents and more efficient recommendation.

6. Students' confidence in making an informed and responsible choice for further studies:

- Information talks, on-site and online real-time overseas exchange sessions and other promotion of relevant activities were proven to be enhancing students' international horizons for future opportunities, as they gained confidence in making an informed choice for further studies and planning for their careers.
- All students showed good grasp the concepts of values, attitudes, skills and knowledge for future careers in their self-reflection in the Student Development Report.
- All S4 and S5 students were proactively involved in the school-based individual career counselling programme, University Dream Flyers Programme, whereas all S6 students grasped the knowhow of JUPAS and information about university admission as the application rate is 100%.

Some of hindering factors that could be taken into account:

- With the rapid development of AI technology, how to use AI properly and have good AI literacy has become a topic that cannot be ignored in school.
- Students have a little bit higher negative emotions in learning and homework, so it is advised to provide more assistance to students with lagging academic progress.

Feedback and Follow-up

- AI tools can be introduced to enhance effectiveness of students' active learning.
- Each subject panel should integrate AI into teaching and learning at different grade levels, with a minimum of two applications per grade for each subject panel.
- AI elements are introduced in diversified assignment modes.
- One assignment per term must involve the use of artificial intelligence.
- A total of 6 subjects, divided into 3 groups, will collaborate on educational research and utilize AI for interdisciplinary collaboration.
- Student leaders apply AI elements in promotional activities for their units.
- STEAM and AI literacy frameworks should be established for both the teachers and students.
- Talent pool will be enhanced to strengthen the cultivation of STEAM talents.
- Junior secondary foreign language learning will be enhanced through technology.
- Students' comprehensive understanding of local culture will be enhanced through the perspectives

- of relevant subjects.
 - IB-style education in junior secondary will be enhanced by encouraging more subjects to adopt oral defence in place of written exams.
 - Support for students in the bottom 5% of academic rankings at each grade level will be enhanced.

(3) Student Performance

- A brief account of students' attitude and behavior:

Based on the newly introduced APASO III conducted in April 2025 and subsequent observations, our students exhibit a commendable attitude and behavior in several key areas. Notably, their sense of satisfaction in school (Q value=116) and feelings of belonging (Q value=116) all surpass the Hong Kong territory-wide average. Additionally, the school atmosphere reflects a low incidence of loneliness (Q value=110) and a positive affect with no negative feelings (Q value=113).

However, there are areas requiring attention. The students' performance regarding anxiety and depressive symptoms (Q value=93) fell below the average, indicating a need for enhanced support. To address this, we will promote a positive and supportive school environment, fostering a "Happydemic" atmosphere through different healthy programs.

In terms of values, our students demonstrated high performance in meaning of life (Q value=116), honesty (Q value=116), morality (Q value=116) and physical exercise levels (Q value=116), reflecting the integration of the six Lutheran virtues and ten priority values set by the Education Bureau across various subjects.

Furthermore, our students showed strong performance in non-assigned reading (Q value=108) and Information Technology (no addiction) (Q value=116), indicating healthy engagement in these areas. Their sense of national identity—including responsibility, pride, and love for their country (Q value=116)—also surpassed the average, showcasing their commitment to civic values.

Overall, while our students demonstrate many positive attitudes and behaviors, targeted strategies will be essential to enhance their emotional well-being and physical activity levels.

* Highest Q value=116 Average Q value =100

- A brief account of students' participation and achievement:

- i) Academic performance:

2024/25 學年「大灣區職涯探索之旅」計劃報告

學校須於完成考察活動後，將舉辦活動的詳情、財政報告和成效檢討載於該學年 (2024/25 或 2025/26 學年)的學校報告內，並將經法團校董會/校董會/學校管理委員會批核的學校報告上載學校網頁，讓持份者(包括教職員、家長、學生等)閱覽。

第一部分：活動詳情

1.	活動模式	參加由教育局委託承辦機構籌辦的「大灣區職涯探索之旅」考察團 (行程 : R19)
2.	到訪大灣區城市	深圳
3.	活動日期	2025 年 7 月 10 日
4.	參加人數	原訂： 中四學生 20 人、中五學生 6 人、教師 3 人，總共 29 人 實際出發： 中四學生 20 人、中五學生 5 人 (1 人缺席)、教師 3 人，總共 28 人
5.	參訪的行業/企業	深港夢工場 (香港青年創業) 及低空經濟科普體驗區

第二部分：財政報告 (適用於選擇運用津貼自行籌辦校本考察團的學校)

不適用 (本校參加由教育局籌辦的「大灣區職涯探索之旅」考察團，由香港中國旅行社有限公司承辦。)

第三部分：成效檢討

1. 考察活動預期目標：

讓參與學生確切了解到大灣區的職涯發展及不同產業的機遇和挑戰，親身認識國家最新政策，為將來的就業方向奠下實證基礎。

2. 考察活動達到的成效：

在深港夢工場 (香港青年創業) 考察環節，學生透過與入駐創業團隊面對面交流、參與創業項目觀摩，深入了解大灣區對香港青年創業的政策扶持 (如場地補貼、跨境資源對接、稅務優惠等)，直觀感受到「一國兩制」背景下跨境創業的便利與機遇。學生對香港青年融入大灣區創業生態有了具體認知，而非僅停留在政策文字層面。學生亦認識了低空經濟相關的研發、運營、監管等多元職業方向，拓寬了就業視野。

整體而言，活動有效將「國家政策」、「產業實踐」與「個人職涯」三者結合，推動學生從學生開始結合自身專業（如商學、工科等）梳理大灣區就業的潛在方向，順利達成「為就業方向奠定實證基礎」的目標。

3. 考察活動可以改善或繼續推展的地方：

可聯合深港夢工場、低空經濟相關企業推出「短期實習體驗名額」，篩選對相關領域感興趣的學生參與 1-2 週的實習，將「考察認知」進一步轉化為「實踐經驗」，強化職涯規劃的落地性。進一步轉化為「實踐經驗」，強化職涯規劃的落地性。

4. 其他觀察（如有）：/
